What is CSLP?

Mission and Vision

We empower libraries to foster community.

We collaborate with libraries to create an inclusive literacy based program that is enjoyable for all ages, provide a reproducible program with a unified theme, share resources and offer professional support.

A group of people
trying to make
summer programming
easier for practitioners
and more meaningful
to communities

We are a 501(c)3 non-profit. We fund our organization with membership fees and catalog sales.
All the money raised supports future programs.
